

Pets and Willoughby Townes

Dear Owners and Residents,

The WTHOA has received several complaints pertaining to pets. Most all of these problems can be solved with a little extra consideration.

Problem #1 – Pet “Residue:” Please clean up after your pets whenever they make their daily deposit. . Most dog owners seem to be doing this, but lawn trophies are evident here and there around the neighborhood. A bag (or other receptacle of your choice) should be as standard as a leash when heading out the door for a walk.

Problem #2 – Unattended Pets on Porches: All of our pets need some outdoor time. Unfortunately, we can’t always afford all of the time that this requires. Although putting the pet on the porch is one solution, bear in mind that pets on porches (especially dogs) may be disruptive (e.g. barking). Please don’t leave your pet on the porch if you aren’t going to be there to let them in or won’t be able to hear them when the singing commences.

Please remember that your pet can affect the whole community, for the good or the bad. With a little extra diligence, we can easily fix these problems.

Thank you,

Board of Directors
WTHOA
